

Low Emission
Strategies

Building on Good Practice

FREE EVENT

The Low Emission Strategies Partnership invites you to a
Low Emission Tools Workshop

Date: Wednesday 13th July
Venue: One Queen Anne's Gate, London, SW1H 9BT
<http://www.oneqag.co.uk/How-to-find>

Morning (10:30-1pm): Emission Reduction & Impact Assessment:

Presentations and discussion of Methods, Applications and Case Studies based on the LES Partnership's Low Emission Toolkit (LET) and other emission based tools and assessment. *Includes: Defra policy update, Department for Transport policy and tools, Aether on the development of PERAT (Planning Emissions Reduction Assessment Tool), plus LES Partnership projects and case studies.*

[Open to everyone, max capacity is 50 people]

Afternoon (1:30 – 4:30pm): LET User Group Meeting:

Hands on workshop using the Low Emission Toolkit. Two parallel sessions: (i) intro user: intro to basic functions and working through examples, (ii) Intermediate/Advanced User: sharing experiences/case studies, raising specific questions, and contributing to the tool's ongoing development.

*[Max capacity is 30 people. This session is for registered users of the LET only. If you are a local authority officer, and would like to register, please download the user agreement from our website:
http://lowemissionstrategies.org/les_toolkit.html.]*

The workshop will be free to attend, but places are limited.

Email us at info@lowemissionstrategies.org for more information, or to book a place – either for the full day, or for either of the morning/afternoon sessions.

More information about the LES Partnership and the Toolkit is available on our website:
